

Student Life

Our university-preparatory program offers a wide range of academic, athletic, artistic, spiritual and other life-formative activities that provide students with the opportunity to develop their full potential to become enriched and well-rounded individuals. Our students experience a level of love and commitment that is unlike any other school. The care and expertise of our faculty and staff sets us apart as we help educate, guide, and develop the whole person.

Academics

Loyola's program is rigorous, but flexible and caring. We offer English and French streams, as well as enhanced streams for Math and Science. Options courses allow students to explore different fields, and students can always depend on the caring support of a dedicated faculty to help them achieve their academic goals.
